

Certificate

Functional Safety Management

FS Management (TÜV Rheinland)

IEC 61511-1:2016 + Corr.1:2016 - SIS Integration (Phase 4)
FSM 116

Certificate No.

968/FSM 116.09/17

Certified Company & Location

ABB Limited
Safety Execution Centre (SEC) UK
Howard Road, Eaton Socon
St. Neots, Cambridgeshire PE19 8EU
United Kingdom

Scope of Certification

**Safety Instrumented Systems Integration,
related to IEC 61511-1:2016 + Corr.1:2016 - Phase 4 (Design & Engineering)**

The certified company has successfully demonstrated during an audit process that a Functional Safety Management System has been implemented and applied accordingly.

The Scope of Certification **SIS Integration** covers integration of **Safety Instrumented Systems (limited to Logic Solver)** for the **Process Industry** up to and including **Safety Integrity Level 3 (SIL3)**.

The following phase activities are considered: **SIS design, configuration, application programming, assembly and test** as well as **safety parameters calculation**.

The IEC 61511 is the basic standard for this FSM Certification; however relevant clauses of the **IEC 61508:2010** standard are used complementarily.

As part of the audit process organizational and informational exchange / supply related to other respective Safety Lifecycle Phases between the Certified Company and its customer is considered.

This FSM Certification only refers to the listed company locations and their involved departments, which comply with the organizational FSM requirements for the listed Scope of Certification. It does not replace approval or certification for specific SIS Integrations.

Validity

This certificate is valid until 2019-11-30

Cologne, 2017-02-06
