| <b>Codes and standards</b>   | ISO 13849-1:2015<br>EN 62061:2005 + AC:2010 + A1:2013 + A2:2015<br>IEC 61508 Parts 1-7:2010<br>EN 50178:1997<br>EN 50156-2:2015                                                                                                                                                                                                                                |                           |                                                                            |
| <b>Intended application</b>  | Logic Controller with I/O Modules for the use in safety-related applications.<br>The system complies with the requirements of Cat. 4 / PL e acc. to EN ISO 13849-1, SILCL 3 / SIL 3 acc. to EN 62061 / IEC 61508 / EN 50156-2 and can be used in applications up to Cat. 4 / PL e acc. to EN ISO 13849-1 and SIL 3 acc. to EN 62061, IEC 61508 and EN 50156-1. |                           |                                                                            |
| <b>Specific requirements</b> | The instructions of the associated Installation and Operating Manual shall be considered.                                                                                                                                                                                                                                                                      |                           |                                                                            |

It is confirmed that the product under test complies with the requirements for machines defined in Annex I of the EC Directive 2006/42/EC.

Valid until 2025-04-06

The issue of this certificate is based upon an examination, whose results are documented in Report No. 968/EL 750.07/20 dated 2020-05-29.

This certificate is valid only for products which are identical with the product tested.

Köln, 2020-05-29
