TÜV Rheinland confirms that Bischoff & Ditze Energy GmbH & Co. KG complies with the following conditions for the product HKN NEU 100/GO NEW100 (acc. Catalogue of Criteria 1.2):

- Within the framework of *HKN NEU 100/GO NEW100* approved, certified guarantees of origin (GoO) for the generation of electricity from renewable energies are used.
- *HKN NEU 100/GO NEW100* provides simultaneous production/issuing of the GoOs on monthly basis acc. the definition of catalogue of criteria 1.2.
- All GoO come from new power plants meaning plants that have not been running for longer than at most six years.
- GoOs from these new power plants may have earmark support. Thus supported and /or unsupported power plants are accepted.
- Furthermore all emissions connected with the generation of electricity (construction and operation) are made climate-neutral through emission reduction certificates of quality *ÖkoPLUS* (Certipedia-ID 0000037968).
- The production plants and their owners are clearly identifiable.
- The conditions and the allocation of resources are subject to an annual inspection.

Bischoff & Ditze Energy GmbH & Co. KG has approved and contractually guaranteed the criteria and the test procedure for HKN NEU 100/GO NEW100 acc. catalogue of criteria 1.2. The conditions stated above were fulfilled for the year 2022. The prerequisites for compliance are fulfilled for the calendar year 2023.
